

# Separated Care Area For all Aircraft

Stirling Dynamics offers a Separated Care Area for economy seats enabling individuals on-board to be separated from the rest of the cabin for COVID-19 mitigation. The last three rows of seats RHS can be easily equipped by the crew into a Separated Care Area without using any tools within a couple of minutes.

The area consists of Crew Rest Couches and Curtains building the required room. Both the Crew Rest Couch and Curtains are already in operation by some carriers.

## Key Characteristics

- Made in Germany
- Keep one-class-layout
- No change or minimum effect on the LOPA
- **Light-weight, flexible, cost-effective**
- Adjustable for double and quadruple seats
- FST requirements according **25.853 (c) Appendix F, Part II**

## Crew Rest Couch

Airlines keep full PAX capacity available during non-Separated Care Area operations.

## Curtains
